

PARIMALA M

8148994038 | Parimalam.it2024@citchennai.net | github.com/PARIMALA-MURUGESAN | linkedin.com/in/parimala-m

EDUCATION

Chennai Institute of Technology

Bachelor of Technology — Information Technology

CGPA: 8.7

3rd Year | Expected 2028

TECHNICAL SKILLS

- **Languages:** C++, Java
- **Frontend:** HTML, CSS, JavaScript, React.js
- **Backend:** Node.js, Express.js, Flask
- **Databases:** MongoDB (Mongoose), MySQL
- **Data & Analytics:** Python, Tableau, Power BI, Excel
- **AI / ML:** Scikit-learn, Gradient Boosting, Machine Learning, Generative AI
- **Tools & Platforms:** Git, GitHub, AWS, Google Cloud, REST APIs

PROJECTS

Weather Alert System Using Meteorological Data

Node.js | OpenWeather API

Built a Node.js app that fetches real-time weather data via OpenWeather API and triggers automated alerts for severe weather conditions.

Stroke Prediction System Using Machine Learning

Python | Scikit-learn | Flask

Built a Gradient Boosting Classifier to predict stroke risk from patient data and deployed it as a real-time REST API using Flask.

Smart UPI Switching — Backend

Node.js | Express.js | MongoDB

Developed a RESTful backend with Node.js, Express.js and MongoDB to handle UPI transactions, user auth, and auto-switching between payment handles based on preference rules.

AI Voice Detection System

Python | FastAPI | Wav2Vec2 | Librosa | PyTorch

Built an audio classification API using Facebook's Wav2Vec2 transformer model to distinguish AI-generated voices from human speech across 5 languages. Processed base64 audio with Librosa and PyTorch, returning confidence scores via a secured FastAPI endpoint.

INTERNSHIP EXPERIENCE

Data Analytics Intern — 8 Queens Software Technology

Onsite

Explored data visualization techniques using Tableau and Power BI to derive actionable insights from raw datasets. Gained hands-on experience in statistical analysis, data cleaning, and formatting to ensure data accuracy and integrity.

ACHIEVEMENTS & AWARDS

- **LeetCode:** 556 problems solved | Rating: 1682
- **Skillrack:** 546 problems solved
- **Google Trust Challenges :** Shortlisted
- Google Developers (Ranchi Hacks) — Shortlisted

CERTIFICATIONS

- AWS Cloud Practitioner Essential
- NPTEL — Internet of Things
- CCNA — Introduction to Networks
- Eduskills — Google Android Developer
- Eduskills — Google Virtual Engineering
- Microsoft Generative AI
- AWS IoT Cloud Engineer
- Relational to Document Model (MongoDB)
